Unit 1

1. Introduction to AI

Module 1.7

1.7 AI as a Service (AIaaS)

Tutorial 1.7.2

1.7.2 AIaaS Examples

AIaaS Examples

Provider	Example Use Case
Google Cloud AI	Offers AutoML and BigQuery for custom ML models and large-scale data analytics, Document-based AI (form parser and document OCR)
Amazon Web Services (AWS)	Provides tools like SageMaker for building, training, and deploying ML models, Amazon CodeGuru
Microsoft Azure AI	Includes Azure Cognitive Services for NLP, vision, and speech capabilities
IBM Watson	Powers chatbots (IBM Watson Assistant), predictive analytics, and healthcare diagnostics
OpenAI (via Azure)	Enables access to generative AI models like GPT for text generation and coding

THANK YOU!!!
